

# Year 6 into 7 Transition Project

Welcome to Beechwood Year 7!

First impressions are really important, and what better way to make a good first impression than by showing your best through your Transition projects! In English in September you will be doing some work based on a theme park that you have designed.

We would like you to do this over the summer, and below are the instructions you will need.

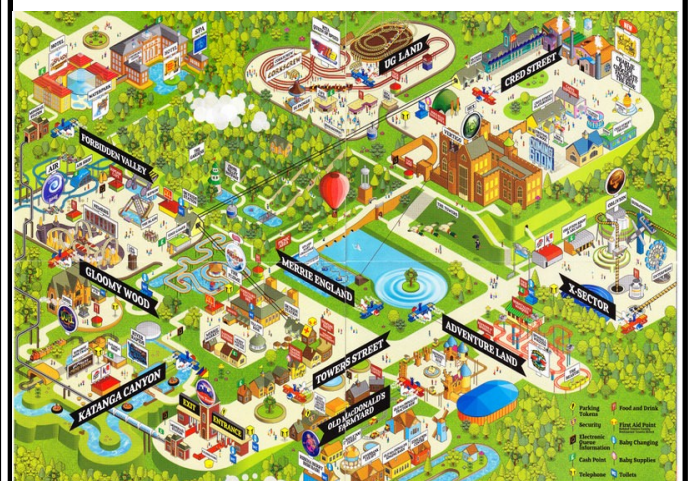

You will need to:

- x create a name for your park
- x create a map of your park
- x design a range of attractions for all ages and thrill levels
- x create a logo for your park
- x remember you need places to eat

Your map can be as simple as this:

Or more complex like this:

And finally.....

# have fun!
